Hello Cheryl,

I have been working on the CSD CAFO and went with you on the audit in June of 2017. I am requesting sample analytical data from any private well testing done as part of the EPA's ongoing investigation of CSD. DNR staff are having an internal meeting on February 12 to discuss possible health effects from high levels of nitrate and presence of pesticides in wells near land application fields used by the CSD. Please call if you need more information. Thanks in advance for your help with this.

Sincerely,

Laura Chern

We are committed to service excellence.
